- Requested speaker for UNC legal nurse consulting course. Presentations include my experience with toxic tort cases, issues involved in toxic torts for the legal nurse consultant, research and organizing the final report
- Requested speaker for AALNC - marketing

2002- 2005

GENEX Services

Certified Case Manager, Certified Legal Nurse Consultant

- Team member of nurses responsible for serving legal firms in class action toxic tort file reviews. Responsible for interfacing with attorney/client, teaching and supporting legal council, answering medical questions that occurred prior to trial.
- Perform medical case management for Workers' compensation claims, liability, and accident/health by consulting with physicians, allied health professionals, attorneys, and employers to confirm treatment regimes, clinical guidelines and explore appropriate alternatives.
- Provided service sales support to current customer base.
- Medical Case management skills have included, continuing education, coordination and facilitation of all medical needs or issues as requested by the treating physician. Providing updates to all involved parties. Coordination of physician follow up visits, obtaining authorizations for treatment from insurance representative, applying nursing practice in areas of assessment, planning, implementation and reassessment of the patient/clients needs.
- Provided medical research with the use of the Official Disability Guidelines (ODG), Dictionary of Occupational Titles (DOT), PubMed, NIH

2001-2002

Concentra

Case Manager, Workers Compensation

- Responsible for duties of the Medical Case Manager. Coordinating and facilitating the medical care and treatment of the injured worker as prescribed by the treating physician. With dedicated attention to the standards of care.

1999-2001

WakeMed

(Concentra and Wake Medical full time overlapping months)

Registered Nurse, Acute Rehabilitation, Home-Care, Provided skilled nursing services to the home bound patient as well as the newly acute disabled. Specialized in trauma, cardiac arrest, paraplegics, tracheotomies, and brain and spinal cord injuries. Focused area of home IV therapies, functioning autonomously, with the application of the nursing process and implementation of the nursing care plan.

- Utilized extensive community resources in the case of home bound patients.
- Recognized by supervisors as a confident, caring, supportive nurse capable of handling the most complicated life and death situations with confidence.

1982-1987 and 1992-1996

William Beaumont Hospital Royal Oak, Michigan

Psychiatry, Brain, Cardiology, Plastic Surgery, Home Care

Time at WBH provided skilled nursing for the cardiac, peripheral vascular brain surgery patients. Facility has over 1000 beds, over 5000 employees.

- Chosen team of nurses for peripheral vascular unit to provide skilled nursing care in telemetry, abdominal aneurysms, amputations, carotid endarterectomies, open heart surgery (CABG).
- Adaptability and skills afforded this nurse ability to provide care for variety of patients. I could move as I chose between cardiology, neurology, and urology. I was called several times into complicated situations where nursing skill with quick thought and process was required.

1987-1992

Care Centers of Michigan

Home care nurse

Provided home care to Livingston County home bound and elderly.

One of three nurses servicing the entire farming community.

Provided health care to farmers with medical needs, the elderly, and disabled

Prior to the above stated dates, as a nursing assistant I worked in nursing homes while attending college full time, a TB sanitarium, volunteered with the American Red Cross instructing in CPR. I have also lived in Las Vegas and worked on a surgical unit. The memorable experience included care of the victims of the MGM fire in 1982.
